Much of the money I earn in my self-directed (rollover 401K) IRA comes from selling covered calls on my holdings. If you implement a rule which does not allow me to use options in my self-directed IRA, I will no longer be able to receive a good portion of my income in retirement.

Please don't do this. If you must, make people sign a statement that they know they are doing this. Do NOT make my broker a fiduciary. That company does nothing more than execute trades that I designate. I do NOT use them for advice; just price quotes and order processing.

Thank you
